TASKS COMPLETED since last meeting:

Task Title: Coding: Room Interface	Task Initiation: 02/12/2021	Orig. Due Date: 02/18/2021 @ Midnight	Status: 100%
Who (%): Ethan 100%			
Description: Implement the room interface navigation in the mobile app per the Design document.			
Expected Outcome: The app should have an interface to navigate the different rooms of a virtual house.			

Task Title: DR2: Record Individual Video	Task Initiation:	Orig. Due	Status: 100%
Segments	02/12/2021	Date:	
		02/22/2021 @	
		Midnight	

Who (%):

Ethan: Introduction, Conclusion,

Noah: Solution Overview, Challenges and Resolutions Courtney: Implementation Overview, Schedule

Seth: Problem Statement, Architecture Overview

Description: Record your individual segments of the presentation as a video per the Capstone instructions. It is recommended to use a private Zoom meeting room and leave a couple seconds pause before and after you speak.

Expected Outcome: Each video segment will be uploaded to the team Google Drive. Each video should look professional with no extra noises (for instance from a messaging app), no unprofessional objects in the background, and proper lighting. Having a pause before and after speaking helps with splicing the videos together. Individual videos should be recorded without the slides.

Task Title: UGRADS Registration	Task Initiation: 02/12/2021	Orig. Due Date: 02/24/2021 @ 15:00	Status: 100%
Who (%): Seth 100%			
Description: Register our team for the UGRADS Symposium including writing a title and abstract.			
Expected Outcome: The registration process should be completed using a title and abstract that was reviewed by the			
team mentor.			

Task Title: Design Review 2	Task Initiation:	Orig. Due	Status: 100%
	02/15/2021	Date:	
		02/26/2021 @	
		3:00 PM	
Who (%): Ethan 100%			

Description: The completed DR2 video following the instructions for Capstone. The individual video segments will have already been recorded without the slides. These video segments need to be stitched together with the slides for one complete video.

Expected Outcome: The completed DR2 video has the slides as the main focus with the speakers as insets. This video is uploaded to Youtube as an unlisted video.

This week's Tasks: Work plan for coming week

Task Title: Coding: Recommendation Algorithm	Task Initiation: 02/15/2021	Orig. Due Date: 03/06/2021 @ Midnight	Status: 70%
Who (%): Seth 100%			
Description: The recommendation algorithm n or room object, and limitations, and send these database using the search feature and aggregate displayed.	to the website. The w	ebsite should use	the criteria to search the

Expected Outcome: When selecting a room or room object in the app, the request for associated AT devices to recommend should be returned by the server as a JSON object.

Task Title: Coding: Display	Task Initiation:	Orig. Due	Status: 75%
Recommendations	02/15/2021	Date:	
		03/08/2021 @	
		Midnight	
Who (%):			
Ethan 50%			
Seth 50%			

Description: The results from the recommendation algorithm should be displayed to the user on the app.

Expected Outcome: The results of the recommendation algorithm are returned as a JSON object. Each result in this JSON should be shown to the user in a separate view as a list. Clicking on a result should show more details about that AT device. Need to also have a button to add that AT device to the user's favorites, and show the relevance rating for each device in the recommendations list. Also needs a button to share recommendations with local resources.

Who (%): Ethan 100% Description: App needs accessibility options for large fonts, text-to-speech, speech-to-text, and different color themes. Expected Outcome: App forwards user to the OS's accessibility settings for large fonts, text-to-speech. Speech-to-text depends on the user having this functionality on their phone's on-screen keyboard. To accommodate various color blindness, the app needs to provide different color themes for the user to select in their profile. Task Title: Coding: User Feedback Task Initiation: 03/01/2021 Who (%): Ethan 50% Description: App needs to provide a way for the user to suggest AT devices that are not in the inventory. Expected Outcome: In the recommendations results view, there is a button for the user to click that opens a new view. This need view that fields for the new AT device name, description, and URL. This recommendation is then saved in a table on the server for the admins to review. Task Title: Coding: Admin Surveys Task Initiation: 03/01/2021 Date: 03/08/2021 @ Midnight Status: 20% Date: 03/08/2021 @ Who (%): Ethan 50% Seth 50% Description: Admins can send Qualtrics surveys to the user by making an entry in the database using the website. Expected Outcome: Admin enters a new survey in the admin website with a URL to the Qualtrics survey. When t app checks the database and finds a survey, it makes it available to the user along with the admin messages. When t user clicks on the link provided, it opens a browser on the user's device to complete the survey. Task Title: DR2 Group Review Task Task Initiation: 02/28/2021 Drie: 03/05/2021 @ Date:	Task Title: Coding: Security	Task Initiation:	Orig. Due	Status: 25%
Midnight Midnight		03/01/2021		
Who (%): Courtney 100% Description: Implement encryption of sensitive data in database and plan for database backup/restoration. Expected Outcome: Admin username are actually email addresses and need to be encrypted when saved and decrypted for user app login. Need an automated set to make backups of the database via CRONTAB. Need a script to easily restore a backup of a database. Task Title: Coding: Accessibility Task Initiation: 03/01/2021 Task Initiation: 03/08/2021 Midnight Who (%): Ethan 100% Description: App needs accessibility options for large fonts, text-to-speech, speech-to-text, and different color hemes. Expected Outcome: App forwards user to the OS's accessibility settings for large fonts, text-to-speech. Noon			03/05/2021 (a)	

Who (%): Each team member 25% (team task)

Description: The team needs to review the DR2 presentations for teams Fridgefiller and GlaciesIndicium.

Expected Outcome: Each team member should review the two teams' DR2 video presentations alone. Then we meet as a team on Tuesday to create the reviews as a team to submit for grading.

Upcoming Tasks: Planning

Task Title: Peer Eval 2	Who (%): Team 100%	Rough Due Date: 03/12/2021
Description: The second peer evaluation for this semester.		

Task Title: Full Prototype	Who (%): Team 100%	Rough Due Date: 03/15/2021		
Tech Demo				
Description: The team performs a tech demo for the alpha prototype to show that it satisfies all functional				
requirements.				

Other Problems / Other Issues:

• We did inventory on our functional requirements and found out that we have a lot more work left to do before the prototype demo is ready than we thought.
