

Team Meeting Minutes

9/16/17

Time: 12:00pm - 12:35pm

Current Work:

- Discussed Progress Since Tuesday's Staff Meeting
- Jacob has purchased and is now in possession of arduino
- Jacob has begun developing team website
- Team discussed what we would like to have on the website such as individual bio's and professional photos
- Zach finished setting up the team's google drive earlier this week
- Mitchell talked briefly about differences between Anisotropic, Orthotropic, Isotropic, and Transversely Isotropic materials

Future Work:

- Continue work on website
- Prepare anything we need for our trip to Phoenix on September 22 to meet with Jeff Peebles
- Build Arduino
- Continue researching materials
