

Team Meeting

Meeting Time: 5:30 – 8:00 PM
6 November 2017
DuBois Center room 11

Attended meeting:

- Saood Alazmi
- Ahmad Almuhanha
- Conor Rich
- Michael Torres
- Lucas Veteto
- David Trevas

Discussion:

Each team member discussed their area of research to the team. The team discussed what parts were ideal and which parts would not work for the design. The team used the given advice when designing each component of the aircraft. Each member introduced design calculations and results. Performed well in the final presentation.

Next week expectations:

Each member must continue researching a component of the plane and discuss it to the team on the next meeting. Come together as a team and compute calculations for the entire plane design.
