Conjugacy of cyclically fully commutative elements of Coxeter groups

Abstract: In this talk, I summarize the work I did for my MS thesis. In particular, I introduce the so-called cyclically fully commutative elements of Coxeter groups of type A and explore their combinatorics as it relates to conjugacy.

4:00 – 5:00 pm
Adel Mathematics Bldg., Room 164
(refreshments at 3:45)

ACGT Seminar:
No meeting this week.

Applied Math Seminar:
No meeting this week.

Friday Afternoon Undergraduate Mathematics Seminar (FAMUS):
No meeting this week, due to UGRADS.
