

EE486 Schedule Presentation

Room Assignments

With 22 projects this year, we need to split up the class into two rooms for schedule presentations. Your professor and GTAs will be grading your presentation as you present, including the individual aspects. Your group score will be shared to the group via email or slack. Same with your individual scores, though these will be shared privately.

Group 1 - du Bois Aspen C Ashwija and Han	Group 2 - BIO 256 Arnau and Demetria
Modular Wireless Testbed	Electric Drives Instrumentation
Power Converter for MW Scale Wind	PV Inverter
