

Nicholas P. McKay

Northern Arizona University
NAU BOX 4099
Flagstaff, AZ 86011

Phone: (928) 523-1918
Email: Nicholas.McKay@nau.edu
Homepage: nau.edu/mckay

Research Interests

Dr. McKay researches paleoclimate dynamics on a range of spatial and temporal scales, ranging from regional to global, and centuries to millions of years. He uses multiple approaches to achieve this, including field work and lab work to develop new records of past climate, informatics and machine learning techniques to develop cyberinfrastructure for paleoclimatology, and numerical and statistical approaches to integrate paleoclimate observations and numerical models. The goal of all this is to better understand how and why climate changed in the past, and to use those insights to inform our understanding of future change.

Education

2012	Doctor of Philosophy , University of Arizona <i>Major:</i> Geosciences <i>Minor:</i> Global Change <i>Advisor:</i> Dr. Jonathan T. Overpeck <i>Dissertation:</i> “A multidisciplinary approach to late Quaternary Paleoclimatology with an emphasis on sub-Saharan West Africa and the Last Interglacial period”
2007	Master of Science , Northern Arizona University, <i>with distinction</i> <i>Major:</i> Geology <i>Advisor:</i> Dr. Darrell S. Kaufman <i>Thesis:</i> Late Holocene climate at Hallet and Greyling Lakes, central Chugach Range, south-central Alaska
2005	Bachelor of Science , Northern Arizona University, <i>magna cum laude</i> <i>Major:</i> Geology <i>Major:</i> Environmental Science <i>Minor:</i> Mathematics <i>Thesis:</i> Characterization of climatic influences on modern sedimentation in an Arctic lake, Svalbard, Norway

Appointments

Present - 2012	Northern Arizona University School of Earth and Sustainability Affiliate in the School of Informatics, Computing, and Cyber Systems <i>Associate Professor</i> - (2019 to present) <i>Assistant Professor</i> - (2014 to 2019) <i>Assistant Research Professor</i> - (2013 to 2014) <i>Postdoctoral Scholar</i> - (2012 to 2013)
-------------------	---

Peer-reviewed Publications

- 2005
1. **McKay, N.P.**, D. S. Kaufman, and D. E. Anderson (2005), Characterization of climatic influences on modern sedimentation in an arctic lake, Svalbard, Norway, *Northeast regional Geological Society of America Conference, Saratoga Springs, New York*, [talk]

Research Grants

Since 2013: A total of seventeen funded projects for \$5,013,707 of local (NAU) funding from the National Science Foundation, Belmont Forum, US Geological Survey, New Zealand Ministry of Business, Innovation and Employment and private funding. Overall funding rate of 50%; 86% as Project Lead PI.

- 2020
- Collaborative Research: EarthCube Data Capabilities: PaleoCube: next-generation paleoscience with EarthCube – **[NAU Lead Investigator]** – *Pending*
 - *NSF: Earthcube*
 - Requested funds (local): \$251,029
 - Dust cycle monitoring in the 4 corners region – **[NAU Lead Investigator]** – *Funded*
 - *Bob and Judi Braudy Foundation*
 - Requested funds (local): \$80,000

Collaborative Research: AccelNet: LINKEDECOS: A Linked Ecosystem of Open Data Resources and Scientists to Investigate Past Biodiversity Dynamics in Socio-environmental Systems – **[NAU Lead Investigator]** – *Declined*

- *NSF: Accelnet*
- Requested funds (local): \$194,296

Monsoon 21k: A global monsoon synthesis and data model comparison – **[Investigator]** – *Funded*

- *NSF: Paleo-perspectives on climate change*
- Requested funds (local): \$503,510

A machine readable paleoseismic event database: toward improving long-term earthquake predictability in southern California – **[Investigator]** – *Funded*

- *NSF: Southern California Earthquake Center*
- Requested funds (local): \$32,782

Collaborative Research: PReSto: A Paleoclimate Reconstruction Storehouse to Broaden Access and Accelerate Scientific Inference – **[Project Lead Investigator]** – *Funded*

- *NSF: Geoinformatics*
- Requested funds (local): \$453,467

Collaborative Research: Patterns and processes of abrupt Arctic warming based on paleoclimate observations and models – **[NAU Lead Investigator]** – *Funded*

- *NSF: ARCSS*
- Requested funds (local): \$527,906

2019

EarthCube Data Capabilities: Collaborative Proposal: PaleoWorkBench - enabling next-generation Earth system science – **[NAU Lead Investigator]** – *Declined*

- *NSF: Earthcube*
- Requested funds (local): \$247,585

EarthCube Data Capabilities: Collaborative Proposal: Reducing Time-To-Science in the Earth Sciences: Annotations to foster convergence, inclusion, and credit – **[NAU Lead Investigator]** – *Funded*

- *NSF: Earthcube*
- Requested funds (local): \$209,116

Collaborative Research: AccelNet: LINKEDECOS: A Linked Ecosystem of Open Data Resources and Scientists to Investigate Past Biodiversity Dynamics in Socio-environmental Systems – **[NAU Lead Investigator]** – *Declined*

- *NSF: Accelnet*
- Requested funds (local): \$210,710

MRI: Acquisition of equipment for an integrated gas analysis and labeling radiocarbon system with a focus on Arctic carbon and geochronology – **[Investigator]** – *Funded*

- *NSF: MRI*
- Requested funds (local): \$486,652

- 2018 Collaborative Research: Quantifying Holocene climate variations through data assimilation using proxies and GCM output – **[Investigator]** – *Funded*
- *NSF: Paleo-perspectives on climate change*
 - Requested funds (local): \$441,947
- Abrupt Change in Climate and Ecosystems: Where are the Tipping Points? **[Project Lead Investigator]** – *Funded*
- *Belmont Forum: Science-driven e-Infrastructure Innovation*
 - Requested funds (local): \$152,451
- Collaborative Research: Framework: Software: Community Earth System Informatics: Enabling Convergent Science **[NAU Lead Investigator]** – *Declined*
- *NSF: Cyberinfrastructure for Sustained Scientific Innovation*
 - Requested funds (local): \$498,835
- MRI: Acquisition of automated graphitization equipment for radiocarbon analysis: Arctic carbon, geochronology, and other applications – **[Investigator]** – *Declined*
- *NSF: Major Research Instrumentation*
 - Requested funds (local): \$411,735
- 2017 Collaborative Research: Quantifying Holocene climate variations through data assimilation using proxies and GCM output – **[Investigator]** – *Declined*
- *NSF: Paleo-perspectives on climate change*
 - Requested funds (local): \$443,129
- Collaborative Research: Evolution of terrestrial climate and vegetation through the mid-Pleistocene climate transition: A 1.5 Ma record from Stoneman Lake, Arizona – **[Investigator]** – *Declined*
- *NSF: Paleo-perspectives on climate change*
 - Requested funds (local): \$323,472
- Holocene Dustiness in the San Juan Mountains, Colorado – **[Investigator]** – *Declined*
- *NSF: Paleo-perspectives on climate change*
 - Requested funds (local): \$451,234
- Lakes380: past, present, future: Our lakes health: past, present, future - Me hoki whakamuri kia haere whakamua – **[NAU Lead Investigator]** – *Funded*
- *New Zealand Ministry of Business, Innovation and Employment – Endeavour Fund*
 - Local funds: \$92,418
- Collaborative Proposal: EarthCube Integration: THROUGHPUT: Standards and Services for Community Curated Repositories – **[NAU Lead Investigator]** – *Funded at Pilot Level*
- *NSF: Earthcube*
 - Local funds (pilot): \$69,227
- MRI: Acquisition of A Mini Carbon Dating System for Understanding Arctic Carbon and Climate (ACCLIMATE) – **[Investigator]** – *Declined*
- *NSF: Major Research Instrumentation*
 - Requested funds (local): \$1,982,320

- 2016 MRI: Acquisition of A Mini Carbon Dating System for Understanding Arctic Carbon and Climate (ACCLIMATE) – **[Investigator]** – *Declined*
- *NSF: Major Research Instrumentation*
 - Requested funds (local): \$1,971,874
- Synthesis of Holocene Proxy Climate Records from Western North America – **[Investigator]** – *Funded*
- *NSF: Paleo-perspectives on climate change*
 - Local funds: \$481,822 (2019 extension increased to \$522,048)
- Collaborative Research: Evolution of terrestrial climate and vegetation through the mid-Pleistocene climate transition: A 1.2 Ma record from Stoneman Lake, Arizona – **[Investigator]** – *Declined*
- *NSF: Paleo-perspectives on climate change*
 - Requested funds (local): \$399,774
- Holocene Dustiness in the San Juan Mountains, Colorado – **[Investigator]** – *Declined*
- *NSF: Paleo-perspectives on climate change*
 - Requested funds (local): \$274,000
- The Drought-Dust Nexus in the Four-Corners Region and Impacts on Society – **[Lead Investigator]** – *Funded*
- *Bob and Judi Braudy Foundation*
 - Local funds: \$139,308
- 2015 EarthCube IA: Collaborative Proposal: LinkedEarth: Crowdsourcing Data Curation & Standards Development in Paleoclimatology **[NAU Lead Investigator]** – *Funded*
- *NSF: Earthcube: Integrated Activities*
 - Local funds: \$113,015
- EarthCube IA: Collaborative Proposal: Chains of Provenance: Linking geoscientific archives, repositories, and analysis **[Investigator]** – *Declined*
- *NSF: Earthcube: Integrated Activities*
 - Requested funds (local): \$132,515
- Collaborative Research: Evolution of terrestrial climate and vegetation through the mid-Pleistocene climate transition: A 1.2 Ma record from Stoneman Lake, Arizona – **[Investigator]** – *Declined*
- *NSF: Paleo-perspectives on climate change*
 - Requested funds (local): \$320,589
- Holocene Dustiness in the San Juan Mountains, Colorado – **[Investigator]** – *Declined*
- *NSF: Paleo-perspectives on climate change*
 - Requested funds (local): \$203,595
- 2014 Collaborative research: Developing a system model of Arctic glacial-lacustrine sedimentation for investigating past and future climate change **[Lead Investigator]** – *Funded*
- *NSF: Arctic System Science*
 - Local Funds: \$753,203 plus \$300,000 logistical support

	Collaborative Research: GeoChronR – Open-source Tools for the Analysis, Visualization and Integration of Time-Uncertain Geoscientific Data [Lead Investigator] – <i>Funded</i>
	– <i>NSF: Geoinformatics</i>
	– Local funds: \$369,346
2013	EarthCube Building Blocks: Crowdsourcing Geoscientific Data Curation [NAU Lead Investigator] – <i>Declined</i>
	– <i>NSF: Earthcube Building Blocks</i>
	– Requested funds (local): \$66,179
	A broader view of North American climate over the past two millennia: Synthesizing paleoclimate records from diverse archives [Lead Investigator] – <i>Funded</i>
	– <i>USGS: Powell Center</i>
	– Local funds: \$129,737
2012	Collaborative Research: A virtual paleoclimate laboratory to quantify climate reconstruction uncertainty – [Lead Investigator] – <i>Declined</i>
	– <i>NSF: Paleo-perspectives on climate change</i>
	– Requested funds (local): \$473,326
	Collaborative Research (RUI): Alaskan and Peruvian Contributions to a Synthesis of Holocene Proxy Climate Records from the Arctic and Eastern Pacific Rim [Investigator] – <i>Declined</i>
	– <i>NSF: Paleo-perspectives on climate change</i>
	– Requested funds (local): \$687,900

Teaching

2019	Instructor	Climate Change (ENV 115), Climate Change Methods (ENV 199), Earth and Environmental Data Analysis (EES 680), Northern Arizona University
2018	Instructor	Climate Change (ENV 115), Global Climate Change (ENV 595), Earth and Environmental Data Analysis (EES 680), Climate Dynamics (EES 580), Northern Arizona University
2017	Instructor	Climate Change (ENV 115), Earth and Environmental Data Analysis (EES 599), Northern Arizona University
2016	Instructor	Climate Change (ENV 115), Atmosphere & Hydrosphere (ENV 360), Earth and Environmental Data Analysis (EES 599), Climate Dynamics (EES 599), Paleoclimate Seminar (EES 698), Northern Arizona University
2015	Instructor	Climate Change (ENV 115), Climate Dynamics (EES 599), Northern Arizona University
2014	Instructor	Climate Change (ENV 115), Paleolakes seminar (EES 698), Northern Arizona University
2013	Instructor	Modes of Climate Variability (EES 698), Northern Arizona University

Awards

2018	AGU 2017 Editors Citation for Excellence in Refereeing
2016	Northern Arizona University Research and Creativity Award: “Most Promising New Scholar”
2012	William G. McGinnies Award for Arid Lands Research

Professional Service and Outreach

2020	Leader: ACCEDE and PReSto Projects Data coordinator: Temperature 12k, iso2k projects
2019	Leader: ACCEDE Project Data coordinator: Temperature 12k, iso2k projects
2018	Co-Leader: Linked Earth Project Data coordinator: iso2k project
2017	Co-Leader: Linked Earth Project Data coordinator: Global PAGES 2k Network; iso2k project
2017	Leader: PAGES North America 2k working group Co-Leader: Linked Earth Project Data coordinator: Global PAGES 2k Network; iso2k project
2016	Leader: PAGES North America 2k working group Co-Leader: Linked Earth Project Data coordinator: Global PAGES 2k Network; iso2k project
2015	Leader: PAGES North America 2k working group Data coordinator: Global PAGES 2k Network; iso2k project Organizer : PAGES/USGS Powell Center “North America 2k working group meeting”, 12-15 October Fort Collins, CO
2014	Leader: PAGES North America 2k working group Data coordinator: Global PAGES 2k Network Organizer : PAGES/USGS Powell Center “North America 2k working group meeting”, 23-26 June Fort Collins, CO Organizer : PAGES “North America 2k AGU Breakout meeting”, 17 December, San Francisco, CA Co-organizer: ”PAGES 2k - Advances in Climate Field Reconstruction Workshop”, 15-16 April, Woods Hole, MA Invited panelist for NOAA Paleoclimate ad-hoc review panel
2013	Climate science Q&A accompanying <i>Chasing Ice</i>
2012	Geology display at Knoles Elementary School STEM Night Public Lecture – Stories in the mud: What lakes have taught me about past climates. Inaugural McGinnies Lecture, University of Arizona.

Students and Postdocs Supervised

Served as lead advisor

Postdocs	Michael Erb (2017-2019), Cody Routson (2014-2016)
Ph.D. Students	Stéphanie Arcusa (2016-Present), Chris Hancock (2020-Present), Ethan Yackulic (2020-Present)
M.S. Students	Sela Patterson (2019-Present), Charlotte Wiman (2017-2019) Ethan Yackulic (2015-2017),

Served on committee

Ph.D. Students	Ellie Broadman, Stacy Kish, Emily Romano
M.S. Students	Holly Gregorich, Annie Wong, Lindsey Gipson, Rebecca Ellerbroek, Charles Mogen, Chris Benson, Rachel Krueger, Lorna Thurston, Hannah Kolus, Doug Steen, Paul Zander
