Attention Computer Science and Applied Computer Science majors
CS Elective for Fall 2017!

Mobile App Development
CS399

Explore theory and practice in design and construction of modern graphical user interfaces using mobile application development.

You will...
1. Gain expertise in graphical user interface (GUI) software programming
2. Become familiar with Android mobile app development environment

This course is ideal as an introduction to our CS477/CS577 class on Advanced User Interfaces

Taught by Prof. Steven Jacobs
School of Informatics, Computing, and Cyber Systems

For Louie, this is CS399-1, class #5079
Mon & Wed 5:30PM to 6:45PM, Room 218
Pre-requisite: CS249 (Data Structures)
